SEPA Session

13:30 **Biodegradable Municipal Waste to Landfill Ban**

The ban on Biodegradable Municipal Waste to landfill will come into force on 1 January 2021 in Scotland. SEPA is preparing to release guidance on what is covered by the ban at the end of April 2018. This session will cover the guidance and invite discussion on any queries or comments operators may have in relation to the Biodegradable Municipal Waste ban and guidance.

14:10 **Landfill Restoration – New Guidance**

SEPA is preparing to release guidance and Operator Notification forms for Landfill Restoration and associated plans. This session will provide an overview of the new guidance and forms and invite discussion.

14:50 **Landfill Sector Plan - Update**

This session will look at the Landfill Sector Plan (available on the SEPA website for consultation - <https://bit.ly/2Jk34Cl> , closing 7 May 2018) and invite discussion with delegates on any queries or comments.

The Landfill Sector Plan covers all open and closed landfill sites currently authorised by SEPA. It also provides details on how SEPA will regulate the landfill sector to ensure continued protection and improvement of the environment.

The plan aims to:

- Ensure all landfill operators reach and maintain full compliance with Scotland's environment protection laws;
- Help as many landfill operators as possible to move beyond compliance.

15:30 **Q&A**

16:00 **Event close**
